GDG

Code

```
class VerticalLayout extends StatelessWidget {
  @override
  Widget build(BuildContext context) {
    return Column(
      children: [
       Expanded(
          child: ImageView(),
        ),
        Expanded(
          child: DemoLoginForm(),
        ),
      ],
    );
  }
}
```

```
class HorizontalLayout extends StatelessWidget {
  @override
  Widget build(BuildContext context) {
    return Row(
      crossAxisAlignment: CrossAxisAlignment.stretch,
      children: [
       Expanded(
         child: ImageView(),
       ),
       Expanded(
         child: DemoLoginForm(),
       ),
      ],
    );
  }
}
```
